

Vision - The Indispensable Quality of Leadership

Effective leaders have a vision of what they must accomplish. That vision becomes the energy behind every effort and the force that pushes through all problems.

How do I get a vision?

Look Within You – What Do You Feel? You cannot borrow somebody else's vision. It must come from inside of you. The thing that brings it out is passion

Look Behind You – What Have You Learned? Every leader's vision is based on their own personal experience. What does your past tell you about your future?

Look Around You – What Is Happening To Others? As a leader, you must always take into account other people. If others aren't with you, you aren't leading

Look Ahead Of You - What Is The Big Picture? Leaders don't get bogged down in the minutia. They see everything from the vantage point of the mountaintop. That's why their goals are called visions.

Look Above You – What is your destiny? No vision is worthy of your life unless it fulfills your destiny, the purpose for which you were designed. Your vision must contribute to your destiny.

Look Beside You – What Resources Are Available To You? Your vision must be bigger than you. The greater it is the more resources it will require. The best leaders bring all the resources in their world into play to accomplish something great.
